SUMMARY

Frontend Engineer with 7+ years of experience building production web applications with React, TypeScript and Redux. At Tata Consultancy Services, rebuilt a legacy system as a modern React and TypeScript application for US-based clients; at Wiser Solutions, a US-based SaaS company, built cross-browser extensions and a shared component library. Maintains 80–90% unit test coverage with Jest and React Testing Library, and uses GitHub Copilot and AI-assisted tools daily to deliver faster. Experienced in Agile/Scrum teams with English-speaking stakeholders, with full overlap with US business hours.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3
Frameworks & Libraries: React, React Hooks, Redux, Redux-Saga, React Router, Node.js, Bootstrap, jQuery
Testing: Jest, React Testing Library, Unit Testing
Tools: Git, npm, Jira, Postman, Chrome DevTools, React DevTools, Browser Extensions (Chrome, Firefox)
AI-Assisted Development: GitHub Copilot, AI coding assistants (code generation, refactoring, unit tests)
Practices: REST APIs, Legacy System Migration, Component Libraries, Responsive Design, UI/UX Implementation, Agile/Scrum

PROFESSIONAL EXPERIENCE

Tata Consultancy Services (TCS) Mar 2023 – Present | Monterrey, MX
Frontend Developer

- Rebuilt a legacy system as a modern React and TypeScript application for US-based clients, recreating its functionality in a maintainable, component-based architecture.
- Built reusable, strongly typed React components with Hooks and TypeScript.
- Designed global state management with Redux and Redux-Saga to handle async data fetching, side effects and error states.
- Integrated REST APIs using Node.js and npm libraries, and tested and validated endpoints with Postman.
- Maintained 80–90% unit test coverage with Jest and React Testing Library.
- Used GitHub Copilot and AI assistants daily to speed up coding, refactoring and test writing, reviewing all generated code.
- Worked in Scrum sprints (Jira, Git) with design and backend teams, communicating in English with US-based clients.

Wiser Solutions Mar 2020 – Mar 2023 | Monterrey, MX
Frontend Developer — US-based retail analytics SaaS

- Enhanced and maintained a cross-browser (Chrome and Firefox) extension built with React.
- Created a shared library of reusable React components to keep the UI consistent across products.
- Integrated frontend interfaces with backend REST APIs in collaboration with the backend team.
- Built responsive, interactive user interfaces with React, React Router and Bootstrap.

CTE Consultores en Teleinformática Empresarial Sep 2019 – Feb 2020 | Monterrey, MX
React Developer Jr.

- Built client websites in React, working with clients to define their look, layout and UI/UX requirements.
- Integrated multimedia content (graphics, audio, video) and third-party applications into client sites.
- Debugged and resolved production issues using React DevTools.

Accenture Apr 2019 – Sep 2019 | Monterrey, MX
Frontend Developer Intern

- Built mobile-first, responsive web pages with React, JavaScript, HTML5 and CSS3.
- Translated UI/UX wireframes into React code while preserving design fidelity.

Earlier Experience: Data Center Operations & IT Support, SISAMEX (Sep 2017 – Feb 2019) — server maintenance, MySQL database support, Oracle EBS connections.
